

Aussie to a "Tea"

In a category dominated by imports, Kintra Foods uses its homegrown advantage to take the competition head on and is one of the fastest growing brands in the tea aisle. Proudly a local Australian tea manufacturer that supports Aussie jobs both directly and indirectly, they preference buying all packaging and raw materials from Australia and support a range of local businesses for their design and marketing. This local first approach also affords them a natural advantage with superior quality, innovation, lead times to produce, and less volatility with global supply chains.

Priding themselves on producing 'in house', Kintra Foods grind their own spices, blend and package their teas on-site. This enables them a superior level of quality control and the ability to produce teas with optimum freshness and flavour.

Versatili-tea

Their latest range is sure to please tea lovers of all persuasions. Whether it be black tea, green tea or herbal tea that excites you, Kintra has you covered. Each tea is available in convenient filter bags or as loose leaf tea in glass jars.

Black tea lovers will delight in Kintra's newly released English Breakfast and French Earl Grey blends. A traditional favourite, Kintra English Breakfast packs a punch with its bold, full bodied flavour. Black tea is rich in minerals, antioxidants and flavonoids which are known to be beneficial for heart health. The L-theanine and caffeine (less than half that of coffee) contained within its

leaves provide increased focus and attention and leave you refreshed and ready for the day.

Those who prefer a more delicate brew will adore Kintra French Earl Grey. Organic Earl Grey has been blended with fragrant rose, blue cornflower and calendula petals to create a truly indulgent blend. Gentle on the stomach, soothing and anti-inflammatory, French Early Grey is perfect for any occasion. This tea both looks and smells divine and makes a lovely gift for that special someone.

They have now added to the mix with Jasmine Green Tea with Pear. Green tea devotees will enjoy the subtle hint of pear that gives a sweet aftertaste to this fragrant beverage.

Jasmine tea has long been linked to a range of health benefits and every cup is bursting with antioxidants and is considered great for heart health and brain function. Gently caffeinated, this opulent blend will leave you feeling alert yet relaxed with its soothing fragrance.

If Herbal Tea is more your flavour then Kintra has two exciting additions to its already extensive selection of premium health teas.

Lemongrass and Ginger with Lemon Myrtle is a real treat with a long list of health benefits. Fragrant lemongrass invigorates the senses and has been used throughout history to treat anything from insomnia, to fever, respiratory issues and infection. Ginger is also thought to have immune boosting effects and improve digestion. Native Australian Lemon Myrtle which has been traditionally used for its antiseptic, anti-inflammatory and antibacterial properties rounds out the flavour and gives a delightful sweetness. Herbal teas are great served hot, however this blend is particularly good served as an iced tea. It warms in winter and cools in summer and is a delicious replacement for sugar laden soft drinks due to its natural sweetness.

Rooibos Tea has long been part of the Kintra range, and it is now available as a

premium cut in glass jars. Perfect for those who prefer the loose leaf variety. Rooibos Tea is caffeine free so you can enjoy it any time of day. It is a great alternative for those trying to reduce caffeine consumption from day to day or keen to try something new.

Time for a tea break?

The right tea can kickstart your day or soothe you gently towards sleep. Tea can be enjoyed for its comforting warmth or as a refreshing spritzer served chilled over ice. It truly is a versatile beverage that is the perfect addition to a healthy lifestyle. Be sure to look out for the new range of Kintra Teas at your local health retailer today.
